

## **Host/Service Site Management**

A key issue for an AmeriCorps program leader is assuring understanding, collaboration, and compliance from personnel at partner host sites where AmeriCorps members serve. Many of the items in the Member Management section of this Guide also apply to Host Site personnel.

### **Nebraska Host Site Application**

In order to assure awareness and understanding of the mutual expectations of AmeriCorps lead agencies and their partner host sites, ServeNebraska requests that a standard Host Site Application be completed by each host site at the time of application for AmeriCorps support. ServeNebraska has developed a standard template which can be found in the Grantee Central section of the ServeNebraska website.

### **Nebraska Host Site Agreement**

The Host Site Agreement is the document that formally identifies the mutual expectations of the lead agency and a host site. This document should be completed prior to the placement of an AmeriCorps member with a host site. ServeNebraska has developed a standard template which can be found in the Grantee Central section of the ServeNebraska website.
