

# Community Conversations

Please Help Us Get Them Started

Take a few moments to take a very brief survey:

ServeNebraska is invested in helping compassionate, concerned individuals and organizations unite and forge dialogues about pressing concerns. This investment builds upon our tradition of providing strong professional development opportunities for those in national and community service.

During 2009 we look forward to hosting and sponsoring a series of sessions – Community Conversations – on topics of relevance to you at times and places convenient for you.

Please help us get started. Share your thoughts.

We look forward to enhancing our partnership with you.

Thank you!
