

## Notice of Funding Opportunity Frequently Asked Questions

*Question: I recently received an email from you about upcoming funding opportunities. I would like to inquire about what types of programs you fund. I am working with a group of individuals that are raising funds to build and open a nursing home facility in our community, would this be a project that would fall into your guidelines?*

*Answer:* As described in our 2023 Notice of Funding Opportunity:

The 2023 ServeNebraska Notice of Funding seeks to award AmeriCorps grants to eligible community partnerships that will engage AmeriCorps members in evidence-based or evidence-informed interventions/practices to strengthen communities (e.g., based on the proposed program's performance and evaluation data or research demonstrating the effectiveness of similar intervention) to address state and local community problems.

More information about ServeNebraska and the 2023 funding opportunity can be found under the AmeriCorps tab on our webpage at <https://www.serve.nebraska.gov/>.
